

## Medical Equipment and Services Arrangements

- Wish-granting organizations are responsible for arranging all foreseeable medical services, supplies and equipment for their families. These arrangements should be made in advance of the family's arrival at GKTW Village. Payment for medical equipment or supplies should be made directly to the selected medical supply company. If an unexpected or unforeseen medical need arises during the Wish, the Wish-granting organizations are responsible for meeting the family's needs.
- Please indicate the medical company name, equipment/supplies and any special arrangements that have made on the Reservation Request –Medical Info Section. For example, if oxygen is required, please indicate if oxygen is needed at the airport, at the Village only or if it is needed in both locations. GKTW should be aware of which medical company your organization is using and what is being delivered **in advance**.
- Please ask the medical company to be sure to list the wish child's name and date of arrival clearly on the package or equipment when they ship items to GKTW for the family. Ask the medical company to also list any special instructions such as refrigeration needed, be marked clearly on the package.
- We ask that any medical equipment accompany the family or be delivered on or as close to the family's arrival date as possible. We do not have an adequate long-term storage area for equipment, especially for items needing to be refrigerated.
- Do Not Resuscitate (DNR) Orders from other states **are not recognized** in the State of Florida. The parent/guardian of the Wish Child can see the Manager on Duty upon arrival at GKTW to obtain the State of Florida DNR form or living will and instruction on how to get it completed. The wish-granting organization is responsible for informing the family of the above.
- If you have any questions or need further assistance, please call us directly at 800-995-5437. We strive to prevent any potential inconveniences for the family prior to arrival and we appreciate your assistance in providing the most relaxing and enjoyable vacation possible for our families.

For the contact information for local medical equipment companies and what they supply, please see the following page.

## Medical Equipment Companies

### **Advanced Aeromedical**

800-346-3556  
Provide: Oxygen
