

Serendipity II

WHAT: Serendipity II is Give Kids The World Village's brand new themed pirate ship stage. Located at the Park of Dreams pool, the stage is used for outdoor entertainment events including the Village's popular Once Upon A Village party featuring pirates, princesses and mermaids.

WHEN: Serendipity II is scheduled for completion in May 2021.

DETAILS: This exciting new amenity will feature many innovative design elements:

- 16' x 9' LED screen to show Dive-In Movies
- Wheelchair-accessible stage for poolside parties
- Fun photo opp features, including an animated parrot and interactive ship's wheel
- Masthead figure on the ship is the maritime cousin of the seahorses on Give Kids The World's Enchanted Carousel
- The ship is constructed of a 100% aluminum frame and cladding, which will have Poly Gem added to create the look of real wood
- The ship is being built off-site, and then will be disassembled and delivered to the Village for a two-day installation at the end of April
- Due to the proximity of the Village to the airport, the masts had to be approved by the FAA due to their height (74 feet)

PARTNERS: The design and build team includes:

- Steamlabs Design Group
- Icarus Exhibits Orlando
- Electrosonic AV Design
- Outdoor Screen SNA Displays
